PROFILE SUMMARY

Aspiring full-stack developer with expertise in React, Node.js, and MongoDB, and a passion for building scalable, efficient web applications. Skilled in implementing responsive designs, solving problems, and working with like TypeScript and Tailwind CSS. Seeking to contribute to innovative projects in a dynamic tech environment.

PROJECT WORK

Book Store Application (MERN Stack)   NOV 2024 – DEC 2024

Full-Stack Developer

- Developed a full-stack bookstore application using MongoDB, Express.js, React, and Node.js.
- Implemented CRUD functionality to allow users to browse, search, add, and delete books from the catalog.
- Designed a responsive and user-friendly interface using React and Tailwind CSS.
- Built RESTful APIs with Node.js and Express.js for secure backend operations.

Portfolio Website   AUG 2024 - SEPT 2024

Front-End Developer (React, Tailwind CSS)

- Designed and developed a responsive portfolio website using React and Tailwind CSS.
- Built multiple pages (Home, About, Contact, Experience, Portfolio) to showcase personal projects and professional experiences.
- Integrated smooth navigation, dynamic animations, and reusable React components for an optimal user experience.
- Deployed the website using Vercel/Netlify for global accessibility.

Comfy Store   SEPT 2023 - OCT 2023

Front-End Developer (HTML, CSS, JavaScript)

- Implemented search functionality and product filtering for an intuitive user experience.
- Developed a responsive design ensuring compatibility across devices.
- Optimized the website's performance with clean code and best practices in vanilla JavaScript.
